

Between April 9th and 19th, the Program will conduct several public scoping meetings around the state. Required as part of the EIR/EIS process, these meetings will solicit public input into the scope of the environmental review process meeting. BDAC members are welcome at all of the meetings. What follows is the tentative meeting schedule.

If you have any comments on the meeting locations, please feel free to contact Public Affairs Officer Mary Kelley by Tuesday, January 30th, via telephone (916/657-2666) or fax (916/654-9780).
